SAFETY & DESIGN
Elegant hygiene protection

| Advantages of » FIOCCHI PARAVENT «

- **ANTIBACTERIAL CHARACTERISTICS!**
The addition of natural biocides (zinc oxyd nanoparticles) minimizes the lifespan of surface bacteria.
- **CONTINUAL RESISTANCE!**
Chlorine or ammonia-based disinfectants, as recommended by the WHO, will not compromise the resistance (please do not clean with alcohol based agents)
- **VISIBLY ATTRACTIVE PREVENTION!**
The addition of decorative silver flakes increases the visibility of the highly transparent acrylic panels to help avoid mishaps and at the same time providing a pleasing visual effect.
- **MADE IN THE EU!**
Production and sourcing of all raw materials is of European origin, guaranteeing highest quality, short supply chains and reliable availability
- **VARIETY OF COMBINATIONS (OPTIONS) FOR COMPLETE SYSTEMS!**
Metal fixtures provide a stable base for the acrylic panels, which can be assembled in a variety of combinations, customized to your requirements. Panel thickness is 8 mm, Customized cuts, shapes and panel sizes up to 3000 x 1200 mm are available. Please note listing.

Available as a set with decorative and functional fixtures >

Elegant hygiene protection!

Take advantage of acrylic panels with the addition of natural biocides. An attractive and efficient solution for your complete hygiene protection. Partitions and dividers, supported by decorative and functional fixtures.

The corona pandemic has caused a variety of restrictions and issues. It has presented us all with great challenges, but also the impulse to search for decisive solutions and the opportunity for constructive ideas.

Our hygiene protection systems are a new development which provide an excellent solution for structural hygiene protection in office settings and public spaces.

- Partitions in offices and on large conference tables in meeting areas and open plan offices
- Dividers in public agencies and institutions
- Partitions in shops, cafes, restaurants and hotels, waiting areas
- Hygiene protection in salons, cosmetic studios and physicians offices
- Protective shields in reception areas (banks, hospitals, etc)
